

BATS IN DARK SKIES

The Coast & Broads are fantastic places for bats, with rare bat species feeding on abundant insects, including moths. Some bats roost in trees and others tuck into buildings and all of them fly at night and ♥ dark skies, some bats even migrate to the UK from Europe and beyond!

Art Competition

Exercise your artistic talents by drawing, painting or collaging dark skies around the Coast & Broads, including bats and other night time wildlife.

Prize of a lovely bat box to put up on a tree or a house will be awarded to the best three entries.
